

Installing Interbillonline on MACs

In Safari download and install Silverlight plugin from Microsoft at www.microsoft.com/silverlight. This will download the Silverlight.dmg file to the users downloads folder on your Mac. Once it is downloaded quit Safari.

Then from the Users download folder, open the Silverlight.dmg file and run the installer .

After running the Silverlight installer, start Safari and go to www.interbillonline.com.

Please let us know if you received this email and this procedure worked for you.
